Seven other buildings are within the site, including a small earth-mounded building. A security building is adjacent to the site entrance.

The site support facility contains an administration and housing section, and a housing section. The administration and housing section is 2,800 feet north-northeast of the launch site. It contains 43 buildings, including 28 barracks-type buildings and 3 L-shaped buildings. At least 14 buildings have been removed from the administration and housing section since [REDACTED]. The housing section is 2,500 feet west of the launch site. It contains 30 buildings, including 15 barracks-type buildings and 1 building under construction.
